

Courses in Technology and Engineering School

Courses in Tourism Management

General Survey on Tourism
The Running of Travel Agency
The Running of Hotel
Tourism Economics
Tourism Policies and Regulations
Tourism Psychology
Tourism Marketing
Tourism Geography and Culture
Management Theory
Tourism Resources and Development

Courses in Legal Affairs

Jurisprudence
Constitution
Administrative Law and Administrative Procedure Law
Civil Procedure Law
Criminal Law
Civil Law
Criminal Procedure Law
International Law
Private International Law

Courses in Mold Design and Manufacture

Mechanical Drawing
Mold CAD/CAM
Engineering Mechanics
Metal Technology
Digital-control Machine tools and programming
Mold Manufacture and Technology
Cold Press Dies Design
Plastic Mold Design
Plasticity Shaping Design
Plasticity Shaping Technology
Plastic Materials
Punching and Shaping Equipments
Industry Molding Design

Courses in Marketing

Political Economy
Western Economy
Statistics Principle
Accounting Principle
Administration Theory
Economic Law
Finance & Banking
International Trade & Business
Administration Theory for Industrial Enterprises
Theory of Marketing
Consumer Behavior
Public Relationship

Courses in Computer Information Management

Assembly Language Program Design
Data Base Principle and Application
General Survey on Business Management
General Survey on Electronic Business Affairs
VC++
Technology of Computer Network
Network Page Design and Making
Computer Counting
VC++ Courses Design
Computer Application and Preservation
Website Building and Preservation
Statistics Principals

Courses of Automobile Application Technology

Automobile Construction
Mechanical Drawing
Microcomputer Application
Hydraulic Transmission
Fundamentals of Motors
Theory of Automobiles Repairing
Automobiles Transportation
Management of Repairing Enterprises
English on Automobiles
Automobiles Marketing
Automobiles Decoration and Beautification
Electrician and Electronics
Mechanics of Materials
Mechanics of Theories
Mechanical Principals
Automobiles Diagnosis and Examination

Automobiles Electronic Control Device

Courses of Technology of Heating, Ventilating and Airing

General Survey on Gas Engineering

Management of Construction Enterprises

Specialty English

New Technology of Heating & Airing

Construction and Environment

General Survey on Engineering Supervising

Construction Electric

Typical Analysis of Heating and Airing Engineering

Ventilation Engineering

Heating Engineering

Boilers and Equipments of Boiler Room

Technology of Air conditioner and Refrigeration

Air modulating

Construction Technology

Construction Organization and Budget

Water Supply and Drainage for Building

Conditioner Automatic Control of Heating and Airing
